### **BluSkies International LLC appoints Rentfro Sales and Marketing**

Bartlett Illinois-BluSkies International LLC, a marine fuel systems technology company, announced today the signing of a National Sales Agreement with Rentfro Sales and Marketing of Lewisville, TX to promote sales of its marine products and services to the aftermarket boating industry.

“I have had personal prior experience with Mr. Rentfro’s (company owner) successes in the marine aftermarket”, stated Mr. Chris Brown, BluSkies President. “And I am certain the depth of Mr. Rentfro’s industry network and years of personal knowledge will be a win-win for our mutual companies’ growth strategy in this market.

At the center of Rentfro Sales and Marketing responsibilities, is to promote sales of the a new technology designated by BluSkies as the “P3” (Palm Pump Priming) system a patent pending primer bulb product for outboard motors that meets both 2010 & 2011 standards criteria, set by the Environmental Protection Agency (EPA) and the California Air Resources Board (CARB) for low permeation. The “P3” can be seen for the first time displayed at this years MAATS show, held July 15–17, 2009 at the Orlando County Convention Center

All BluSkies products currently in development, including this, the industry’s first CARB/EPA primer bulb, are also designed to meet or exceed applicable marine standards and regulations, including but not limited to.... USCG (United States Coast Guard), NMMA, (National Marine Manufacturers Association) ABYC (American Boat & Yacht Council) & CSA (Canadian Standards Association)
