

NAUTIQUE LAUNCHES ALL-NEW SUPER AIR NAUTIQUE 210 AND 230

ORLANDO, FLA (July 22, 2013) - Nautique is excited to announce the all-new Super Air Nautique 210 and Super Air Nautique 230.

Completely redesigned for 2014, the Super Air Nautique 210 and 230 incorporate new technology and design features resulting in the look and performance customers expect from Nautique. The improved hull design creates a new and improved wake and seamlessly integrates the Nautique Surf System, allowing for an amazing surf wave. The optional Pro Wake/Surf Ballast provides a maximum of 1,750 pounds ballast in the 210 and 2,100 pounds ballast in the 230 creating an incredibly fun wake.

Precision-point gel lines and geometric hull side embossments are just a few of the key features of the all-new exterior giving the 210 and 230 a style that commands attention on the water. The all-new interior features an ergonomic helm design, deeper seating with bolstered corners, plush lean backs and attention to every detail that sets Nautique apart. Standard luxuries include the center transom walk-thru, signature Nautique Teak flooring, and a removable, soft-sided cooler. With the new Polk® Stereo System with Bluetooth® connectivity boaters will hook up their device and control music with a touch of the button through the Nautique LINC System.

“We are excited to introduce the all-new Super Air Nautique 210 and 230. Both of these boats are part of the Nautique legend and the changes demonstrate once again Nautique’s commitment to provide innovative boats to our customers,” stated Nautique’s President/CEO Bill Yeargin. “Our dealers experienced these boats in June and were thrilled. They are now on our production line so expect to see them at a Nautique dealership near you very soon,” Yeargin added.
