The newly acquired company, now known as [Fairline Yachts](#), headquartered at its Oundle, Northamptonshire, England factory, is represented in Florida by G Marine; Fairline shows two popular models in Miami, the 48 Targa Open and the 53 Targa, representing the mid-size of Fairline's current 38'-78' range.

The company is re-evaluating the market, planning its focus for coming years as yachting styles evolve. "Fairline has extremely well-designed, engineered and built yachts that are timeless in style," says Miles Moorhouse, Marketing Manager, commenting on the worldwide distribution of the 60-year old brand. "South Florida is among the largest leisure boat markets and we are keen to continue the long-term relationship with G Marine in Miami," he adds, "Our dealer network is a key strength for Fairline, and G Marine is one of the 'crown jewels.' We appreciate the company's experience and input as we focused on developing new and exciting models to the highest standards, as our customers expect and deserve."

Fairline Targa 53 GT

The Fairline [Targa 53 GT](#) is the latest addition to the line. A sleek, tapered hull and panoramic windows bathe natural light on the mid-ship master cabin, framed by a double guest cabin forward and a versatile twin cabin to port.

The cockpit adjoins the saloon where a J-style bench seat converts into a sun pad, where sliding stainless steel doors open to the aft deck. An optional continental galley in the saloon expands the capacity of the galley below, offering food and beverage service to complement the outdoor-indoor accommodations; the teak flooring and table facilitate alfresco dining.

The electric hardtop provides sun or shade; sunbathers can take advantage of the ample sun pads, bow and aft.

Volvo Penta D-11 engines provide ample speed for exhilarating 32 knot runs while the 3' 11" draft make the Targa 53 GT ideal for island cruising and sand bar relaxation.

New to the production line, Fairline's Targa 53 GT offers customization to the owner's taste, incorporating varying wood finishes and configurations as well as engine types, stabilization systems and optional crew quarters.

Fairline Targa 48 Open

As the name of the [Targa 48 Open](#) states, this sleek vessel opens the senses to the sun, wind and sky with her electric retractable canvas roof as well as the retractable cockpit cover, both with the push of a button.

The Targa 48 Open comfortably sleeps up to 5 and provides space to entertain many more, with thoughtfully arranged social areas. The saloon opens via a sliding door with integral blinds to the large teak aft deck with an inviting bench lounge.

Delivering dynamic performance and exceptional maneuverability with Volvo Penta IPS engines and joystick controls, the Targa 48 Open is an exciting sports cruiser. Its submersible swim platform adds ease to water access and a spacious garage has room for water toys, dive and snorkeling equipment.

Exclusive dealers to the Americas for Spanish yard, Astondoa, and Florida dealer for the UK's Fairline, **G Marine** offers a fine, diverse selection of new or brokerage yachts for various needs and budgets. The in-water showroom is ideally located on the Miami River near the Miami International Airport. www.gmyachts.com or call [305-330-1025](tel:305-330-1025).
